Daltco Electric
ELECTRICAL SUPPLY SOLUTIONS

Q2 2024

Summer is almost upon us! The Team at Daltco hopes you enjoy a fun, sunny and safe Summer season with friends and family! Take some time to check out a few of the Daltco services, suppliers, and new product that we are thrilled to share with you! As always, thank you for your continued patronage!

Lighting the way

As you know Daltco is a comprehensive distributor of residential, commercial, and industrial lighting equipment. With a wealth of expertise, we offer guidance on lighting applications and propose energy-efficient retrofit solutions. Daltco is also now a Save on Energy partner, ask today how you can get instant rebates on your next retrofit!

[Learn more about Save on Energy Instant Discount Program](#)

We provide impartial advice on retrofitting and new installations, aiding in determining the optimal choice between fixtures, bulbs, and ballasts. Additionally, Daltco offers lighting solutions, dimming system applications, and the specification of various home comfort products, such as floor heating cables, backup generators, home networking and cabling, among others. Ask how we can help with your next lighting project!

POWER WHAT'S NEXT

DID YOU KNOW?

Daltco offers priority order services, including order expediting and back order follow up. Have an urgent order? We have dedicated staff who will track your order from the moment the purchase order is placed until your product reaches our receiving docks, ensuring your critical items arrive on time when you need them.

Have multiple orders on the go? Daltco can also provide you with weekly back order follow up reports so you are up to date at all times throughout the supplier manufacturing process and be advised of any changes to your back orders as they occur, so you are always up to date.

Supplier spotlight...
